#### 1. NATURE AND CONTINUANCE OF OPERATIONS

Independence Gold Corp. ("Independence" or the "Company") was incorporated under the Business Corporation Act (British Columbia) on November 1, 2011 and is considered to be in the exploration stage with respect to its mineral properties. The recovery of the amounts comprised in mineral properties is dependent upon the confirmation of economically recoverable reserves, the ability of the Company to obtain necessary financing to successfully complete their exploration and development, and upon future profitable production.

These condensed consolidated interim financial statements have been prepared by management on a going concern basis which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. Management believes that the Company has sufficient working capital to maintain its operations for the upcoming fiscal year.

These condensed consolidated interim financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue in existence.
